THL, Finland

EU-JAV has received co-funding from the European Union's Health Programme under Grant Agreement no. 801495.

EU Joint Action on Vaccination

Coordinating institution: Inserm, France

Coordinator: Professor Geneviève Chêne, Univ Bordeaux (genevieve.chene@inserm.fr)

EU-JAV aims to build concrete tools to strengthen national responses to vaccination challenges in Europe by:

- Establishing sustained cooperation of relevant Member State authorities
- Defining basic principles for vaccine demand forecasting
- Developing a concept and prototype for a data warehouse for EU-wide sharing of vaccine supply and demand data/information among dedicated stakeholders
- Defining common stages and criteria for priority-setting of vaccine research and development
- Developing a concept and prototype for a vaccine R&D priority setting framework
- Defining structural, technical and legal specifications as regards data requirements for electronic vaccine registries/databases/immunisation information systems
- **Providing a framework to cooperate on hesitancy and uptake**

WP8: Vaccine hesitancy and uptake. From research and practices to implementation

- ❖ **Task 8.1:** Mapping and creating mechanisms for reviewing research-based knowledge and best practices in Member States and among stakeholders. (THL, Finland)
- ❖ **Task 8.2:** Providing guidance for developing practices and policies for maintaining good vaccine uptake and for supporting public health responses to hesitancy. (THL, Finland)
- ❖ **Task 8.3:** Monitoring real-time public vaccine confidence through social media and promoting healthy behavior through the web. (ISS, Italy)
