

GLOBAL TASK FORCE ON  
**CHOLERA CONTROL**

# Ending cholera : a global roadmap to 2030

Dr Dominique LEGROS, WHO, December 2018

**End Cholera** as a  
public health threat in  
up to 20 countries;  
reduce deaths by 90%  
by 2030

How

The bridge

Country  
level

# 2030 CHOLERA ROADMAP: COUNTRY DRIVEN IMPLEMENTATION ALONG 3 AXIS

1. Early detection and immediate response to contain outbreaks
2. Multi-sectoral cholera elimination interventions in targeted cholera hotspots
3. GTFCC partnership as a coordination and country support mechanism

# From preparedness and response to prevention and control

Treating patients alone has limited impact on transmission

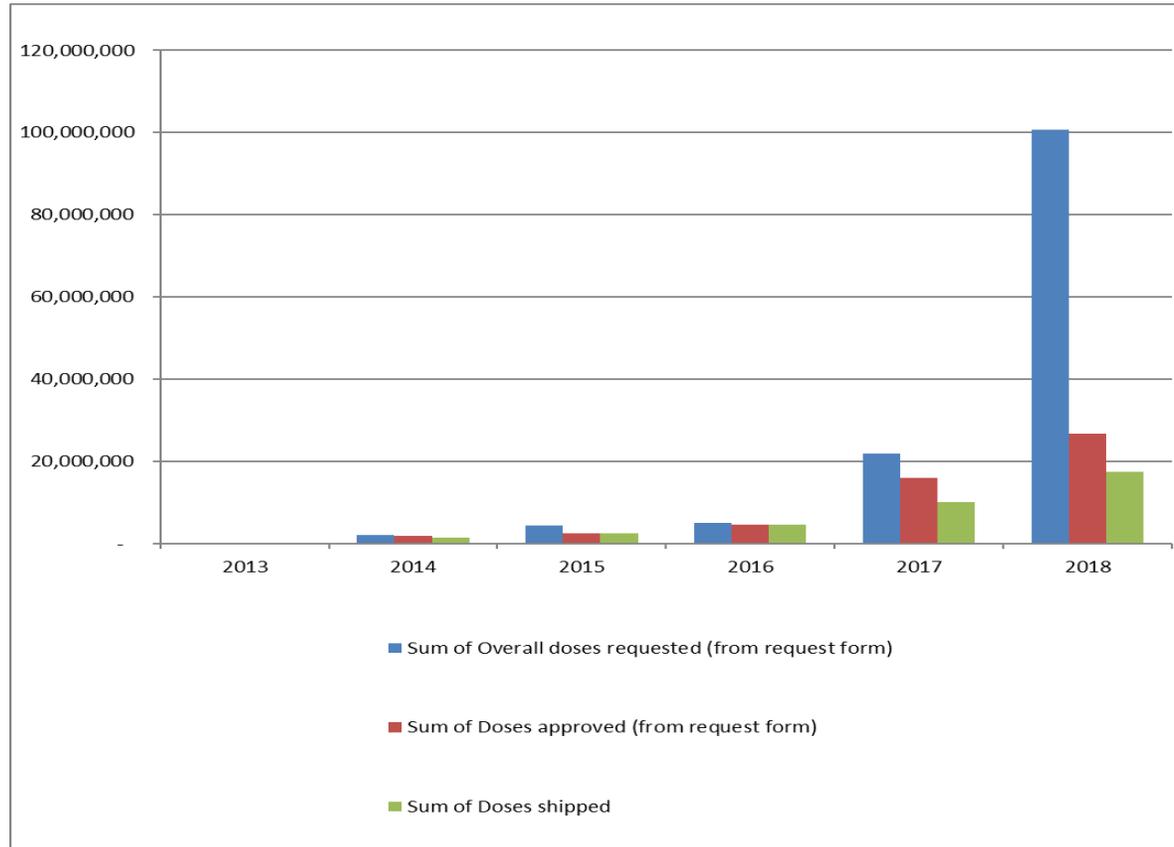

**Cholera Treatment Centers, cholera kits, emergency WASH**

**...and OCV with WASH**

**...and long-term WASH**

**Bridging emergency and development**

# OCV USE GROWING EXPONENTIALLY

Row Labels	Sum of Overall doses requested (from request form)	Sum of Doses approved (from request form)	Sum of Doses shipped
2013	204,500	204,500	204,500
2014	1,962,485	1,806,215	1,486,215
2015	4,419,127	2,502,634	2,502,775
2016	5,021,672	4,668,837	4,645,345
2017	21,800,653	16,037,537	9,979,595
2018	100,781,390	26,789,305	17,447,580
<b>Grand Total</b>	<b>134,189,827</b>	<b>52,009,028</b>	<b>36,266,010</b>

# STRONG ENGAGEMENT OF COUNTRIES, DONORS AND PARTNERS

# DONORS AND PARTNERS ENGAGEMENT

BMGF, CDC, GAVI, IFRC, UNICEF engaged as members of the GTFCC steering committee

CDC engagement for technical support in countries

Fondation Mérieux engagement for the organisation of meetings

IFRC One WASH project targeting cholera hotspots across 20 countries

UNICEF engagement for support to coordination and to the investment case (health economist)

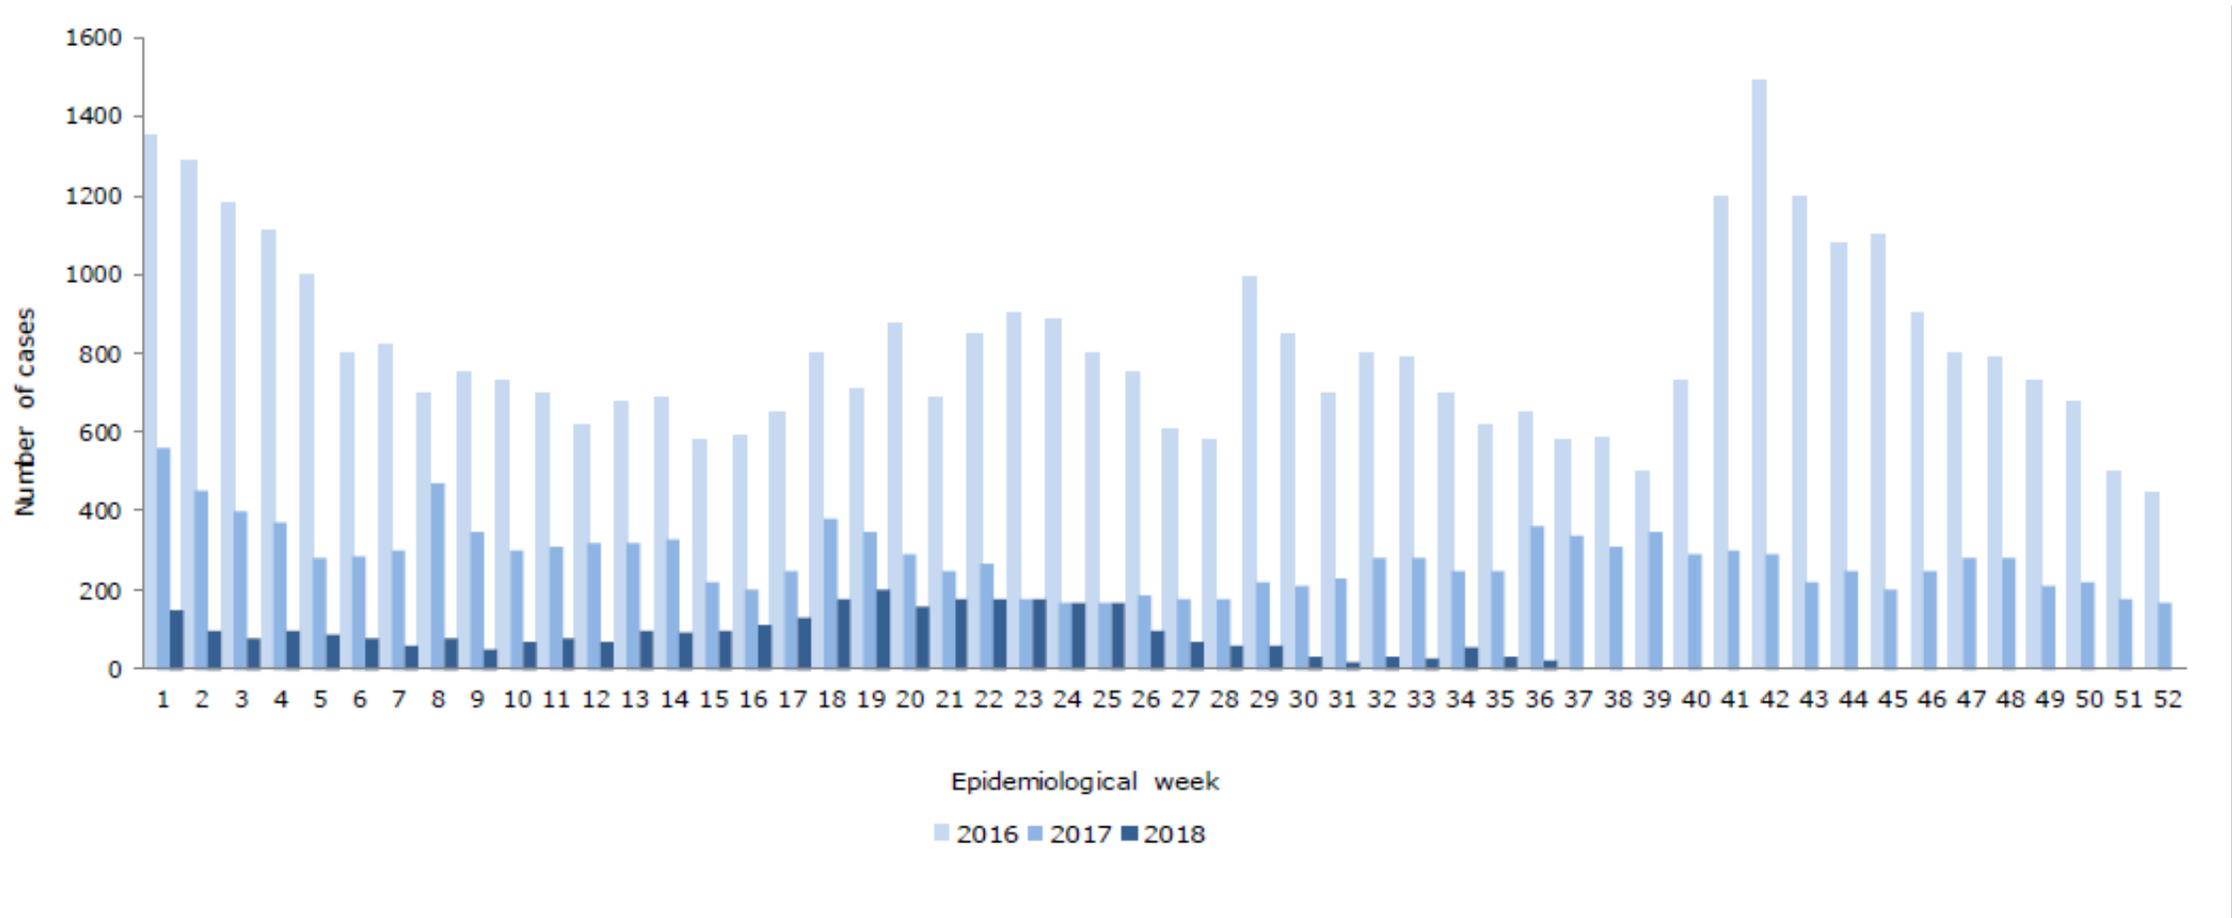

AFD, DFID, Koica, SIDA, USAID, WB... supporting long term WASH projects in countries, focusing on cholera hotspots

BMGF supporting the GTFCC secretariat, the development of the investment case and advocacy activities

GAVI supporting OCV, technical assistance in countries, surveillance

Welcome Trust and DFID supporting research on cholera

# WE ARE MAKING PROGRESS...IN HAITI

# WE ARE MAKING PROGRESS...IN YEMEN

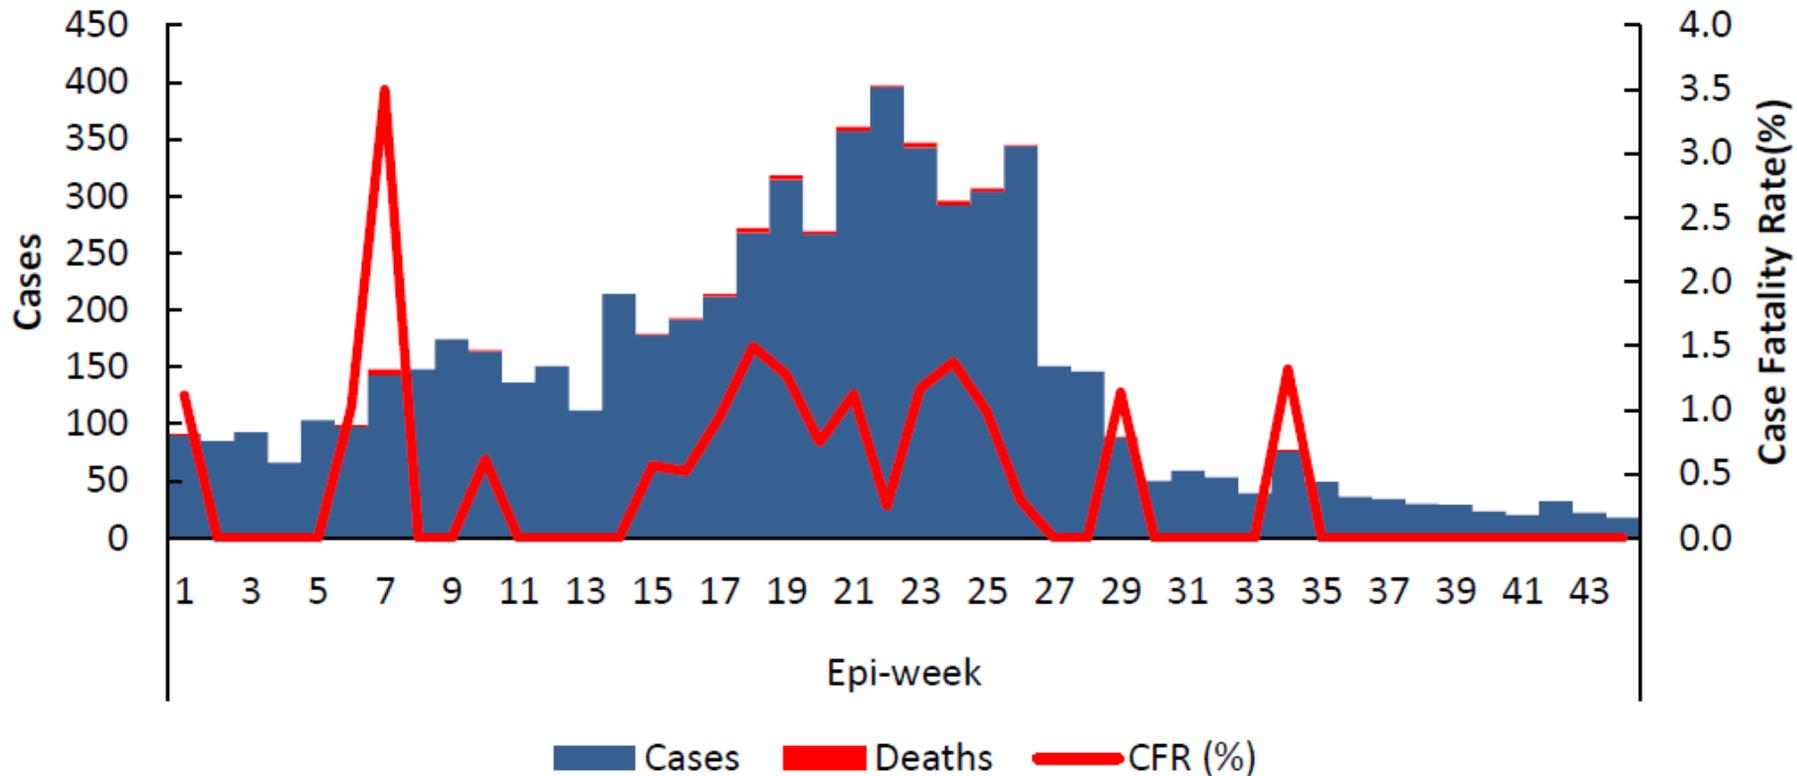

Outbreak spread much less this year than in 2017

No extension when the rainy season started in July

Success of the OCV campaigns

# WE ARE MAKING PROGRESS...IN SOMALIA

Fig 3. AWD/Cholera trends in Somalia from Wk1-Wk47, 2018

6605 cases  
and 45 deaths  
as of week 47

(75,414 cases and  
1007 deaths  
reported in 2017)

# THE OCV CAMPAIGN AMONG ROHINGYAS IN BANGLADESH WAS A SUCCESS

 CrossMark

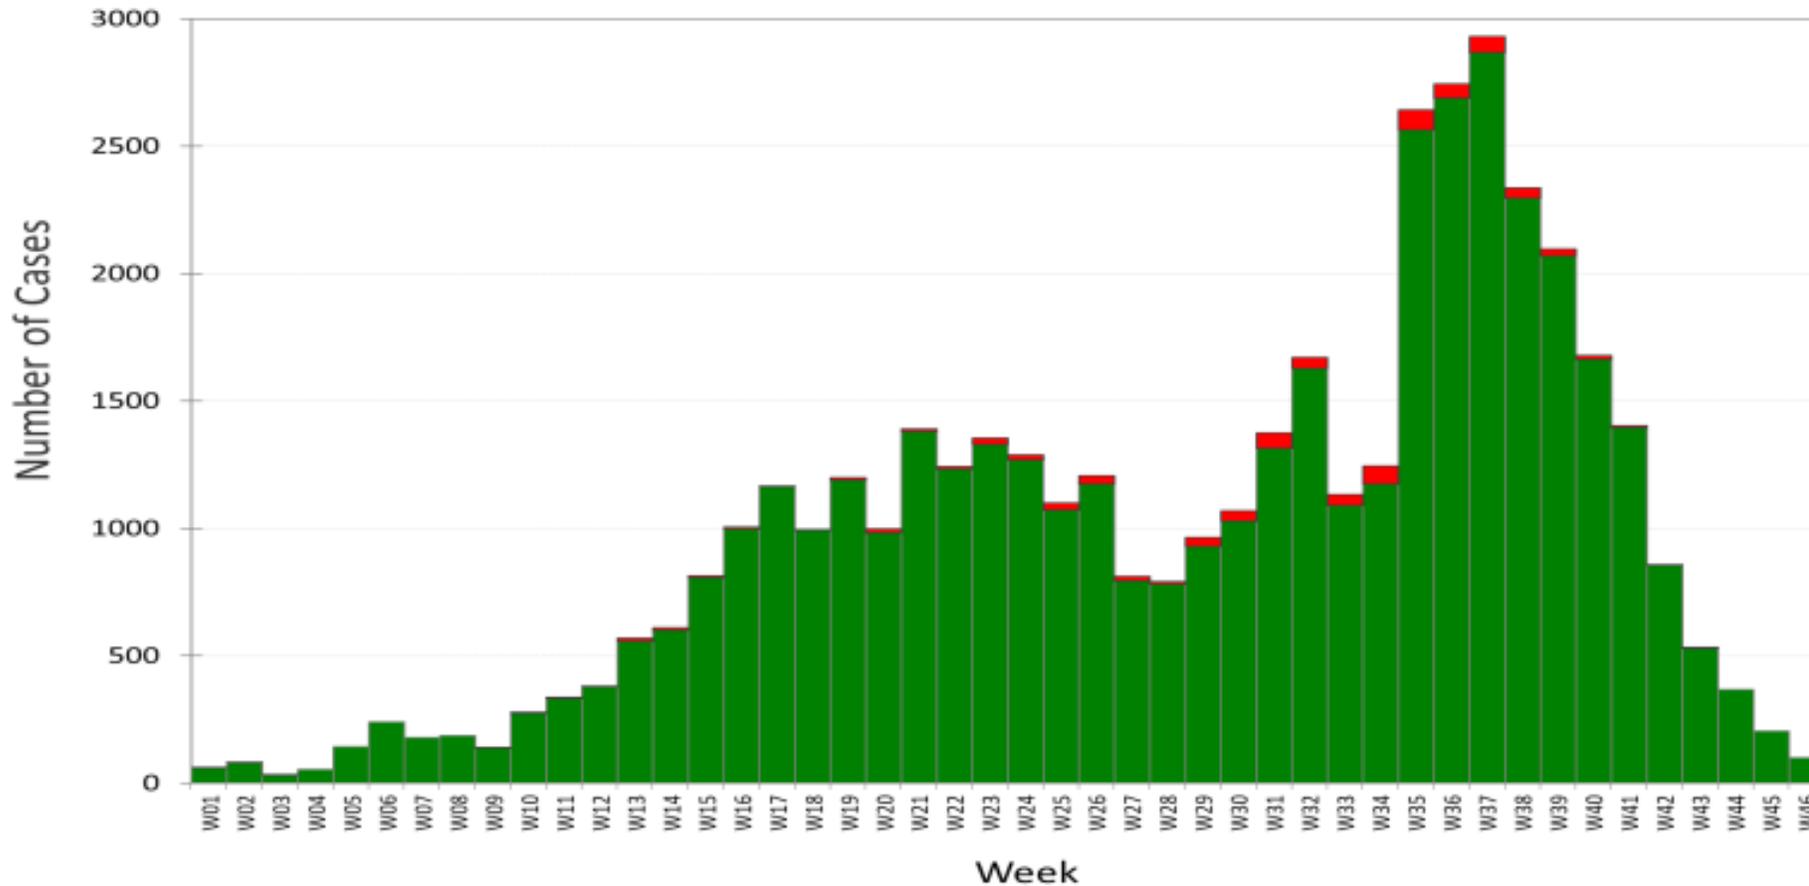

# WE HAD A SUCCESS IN SOUTH SUDAN

# BUT NOT YET IN NIGERIA

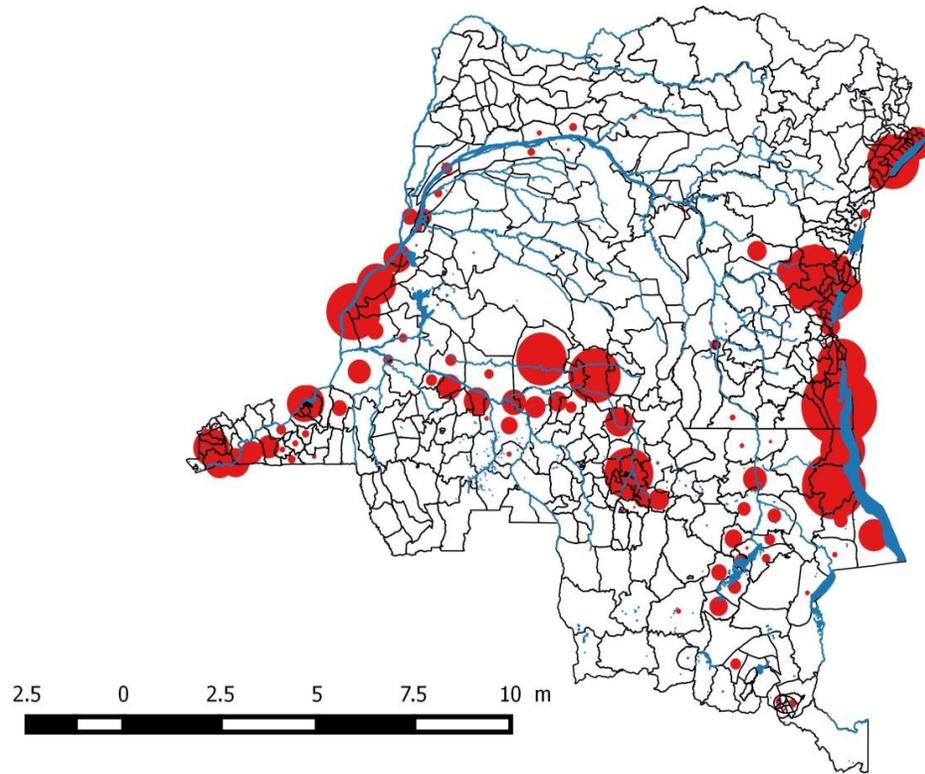

Nigeria: Reported Cholera Cases by Week, WK01- 46 2018

43,990 cases  
and 836 deaths  
as of 19<sup>th</sup> Nov...

(12,174 cases and  
288 deaths  
reported in 2017)

# NOT YET IN DRC EITHER

20,034 cases and  
701 deaths as of week 39

(56,190 cases and 1190  
deaths reported in 2017)

SO, WHAT COULD MAKE THE ALL STORY FAIL ?

No engagement of key countries

Poor coordination and leadership at global level

Lack of in-country coordination and financing mechanisms

Vaccines but no WaSH

Lack of vaccines

# WORKPLAN 2019

## **Support priority countries to implement the roadmap**

- Would require strong capacities of GTFCC to establish and maintain in-country technical and managerial support

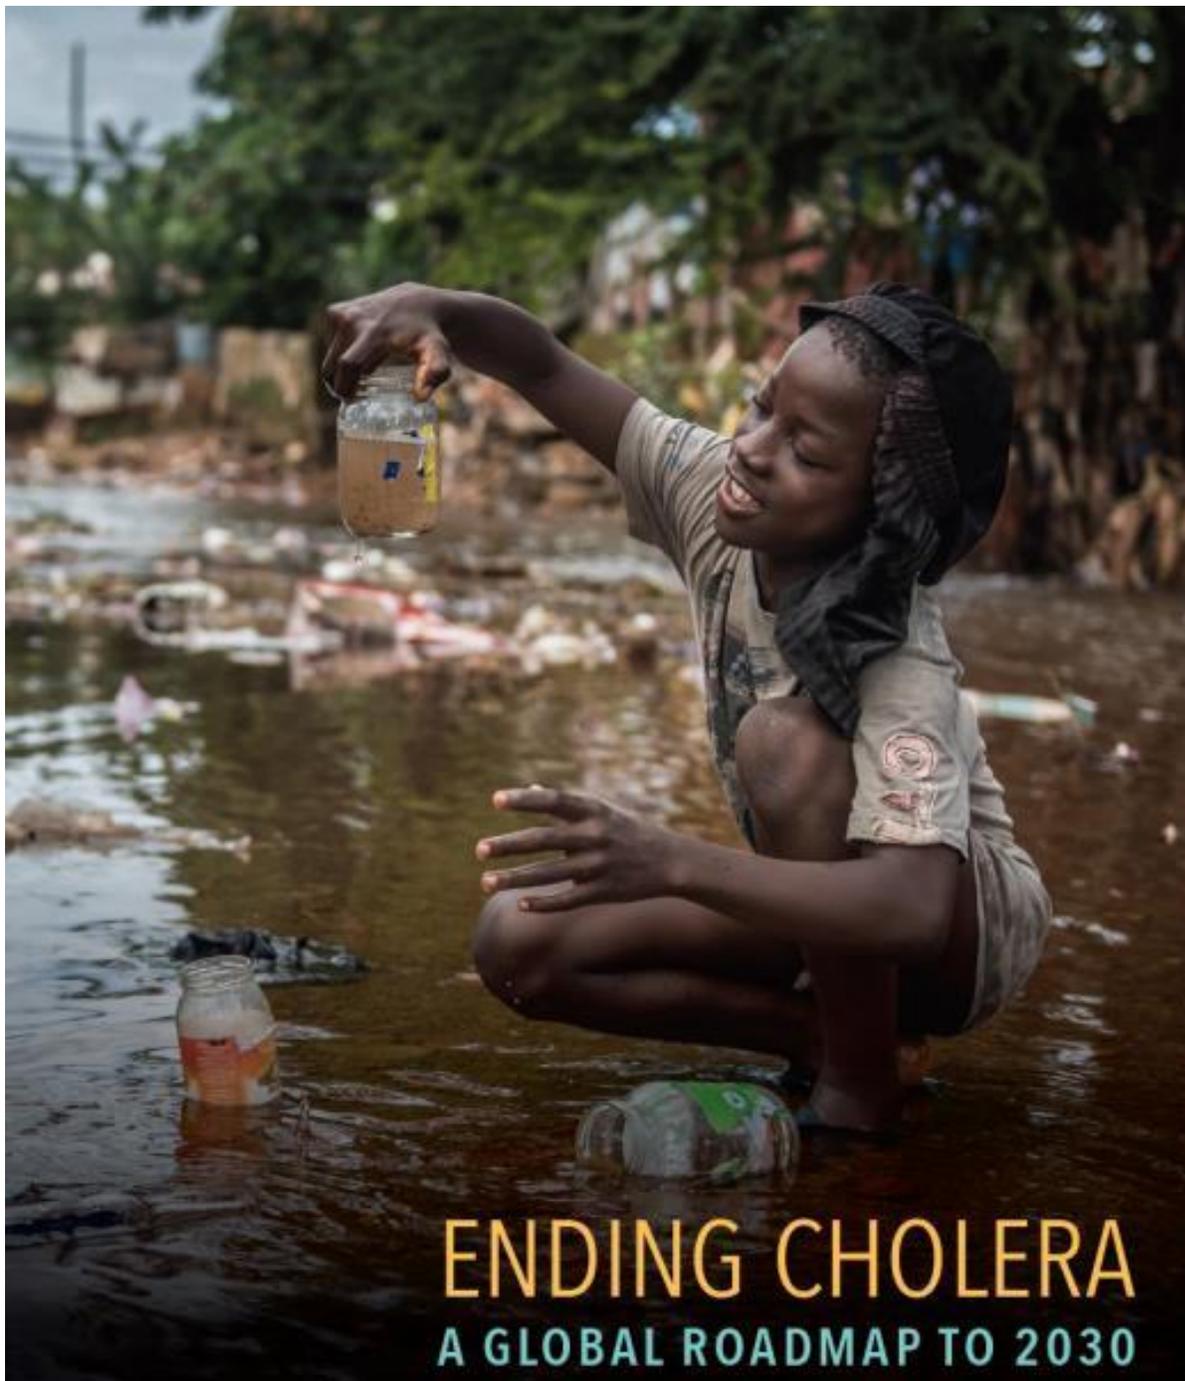

## **Improve coordination and leadership mechanisms at global level**

- Adapt the GTFCC set up (platforms)
- Establish a GTFCC steering committee

## **Ensure strategic vaccine supply, tailored to the needs**

- Ensure OCV are used at large scale, but in a strategic / preventive manner, as a trigger mechanism for sustained WaSH interventions, at least in stable countries
- Adapt the procedures accordingly

## **Publish and communicate on the investment case – Advocacy+++**

# THANK YOU!

Together, we can  
**#EndCholera**
