What tools are needed for cholera elimination campaigns?

UF: Eric Jorge Nelson, MD PhD . IEDCR Drs. Flora, Salimuzzaman, Sujon, et al. icddr,b: Drs. Khan, Qadri, Zion, Sarker, Chisti et al. Email= eric.nelson@ufl.edu

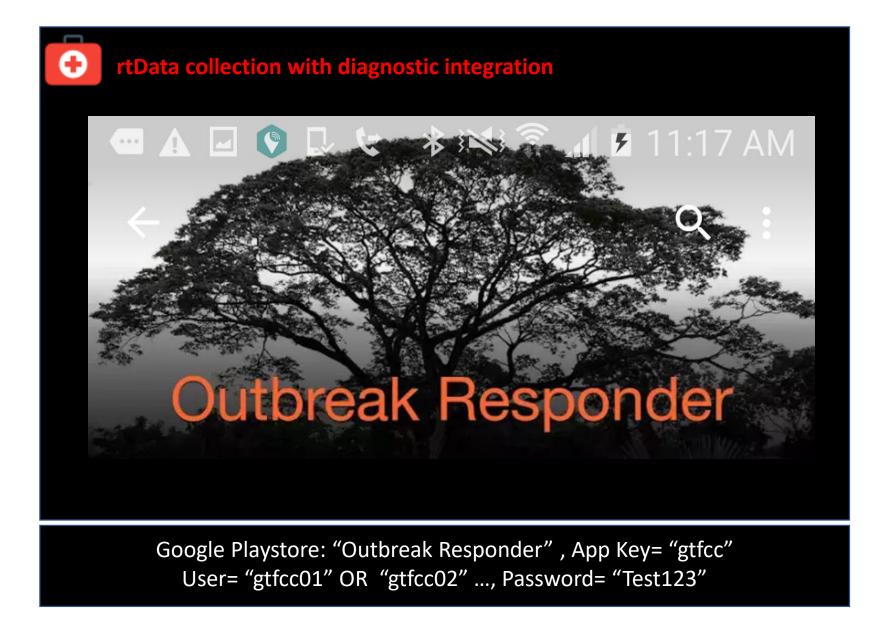

Tool Kit: Vaccine + WASH + Diagnostics + rtDATA + Care + Prophylaxis

Our journey to contribute to an end-to-end pipeline for outbreak response

- A. Science: How might we enable actionable real-time data collection?
- B. Medicine: How might we assure high-quality care at hospitals?

Ð

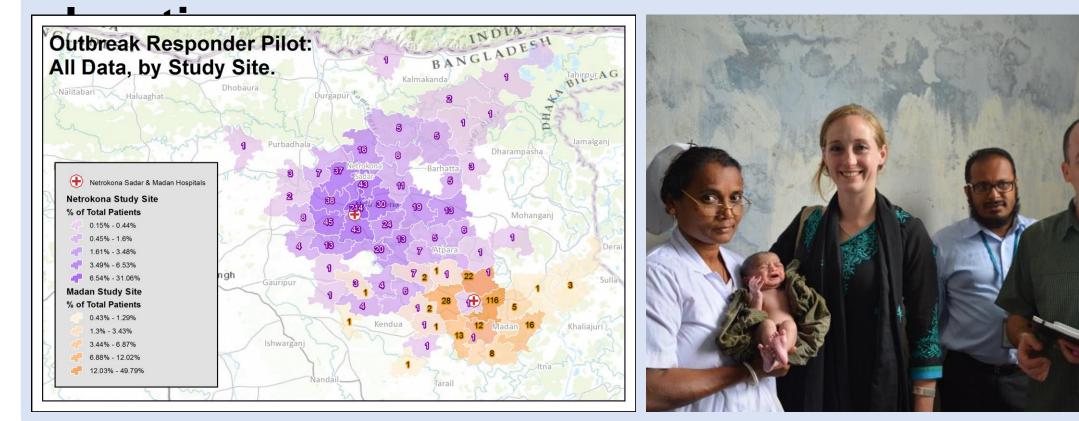

A. Science: Real-time data collection (rtData)

Outbreak responder: rtData collection and diagnostic integration
