

GLOBAL TASK FORCE ON
CHOLERA CONTROL

**GUIDANCE ON NATIONAL CHOLERA PLANS
FOR CONTROL / ELIMINATION DEVELOPMENT**

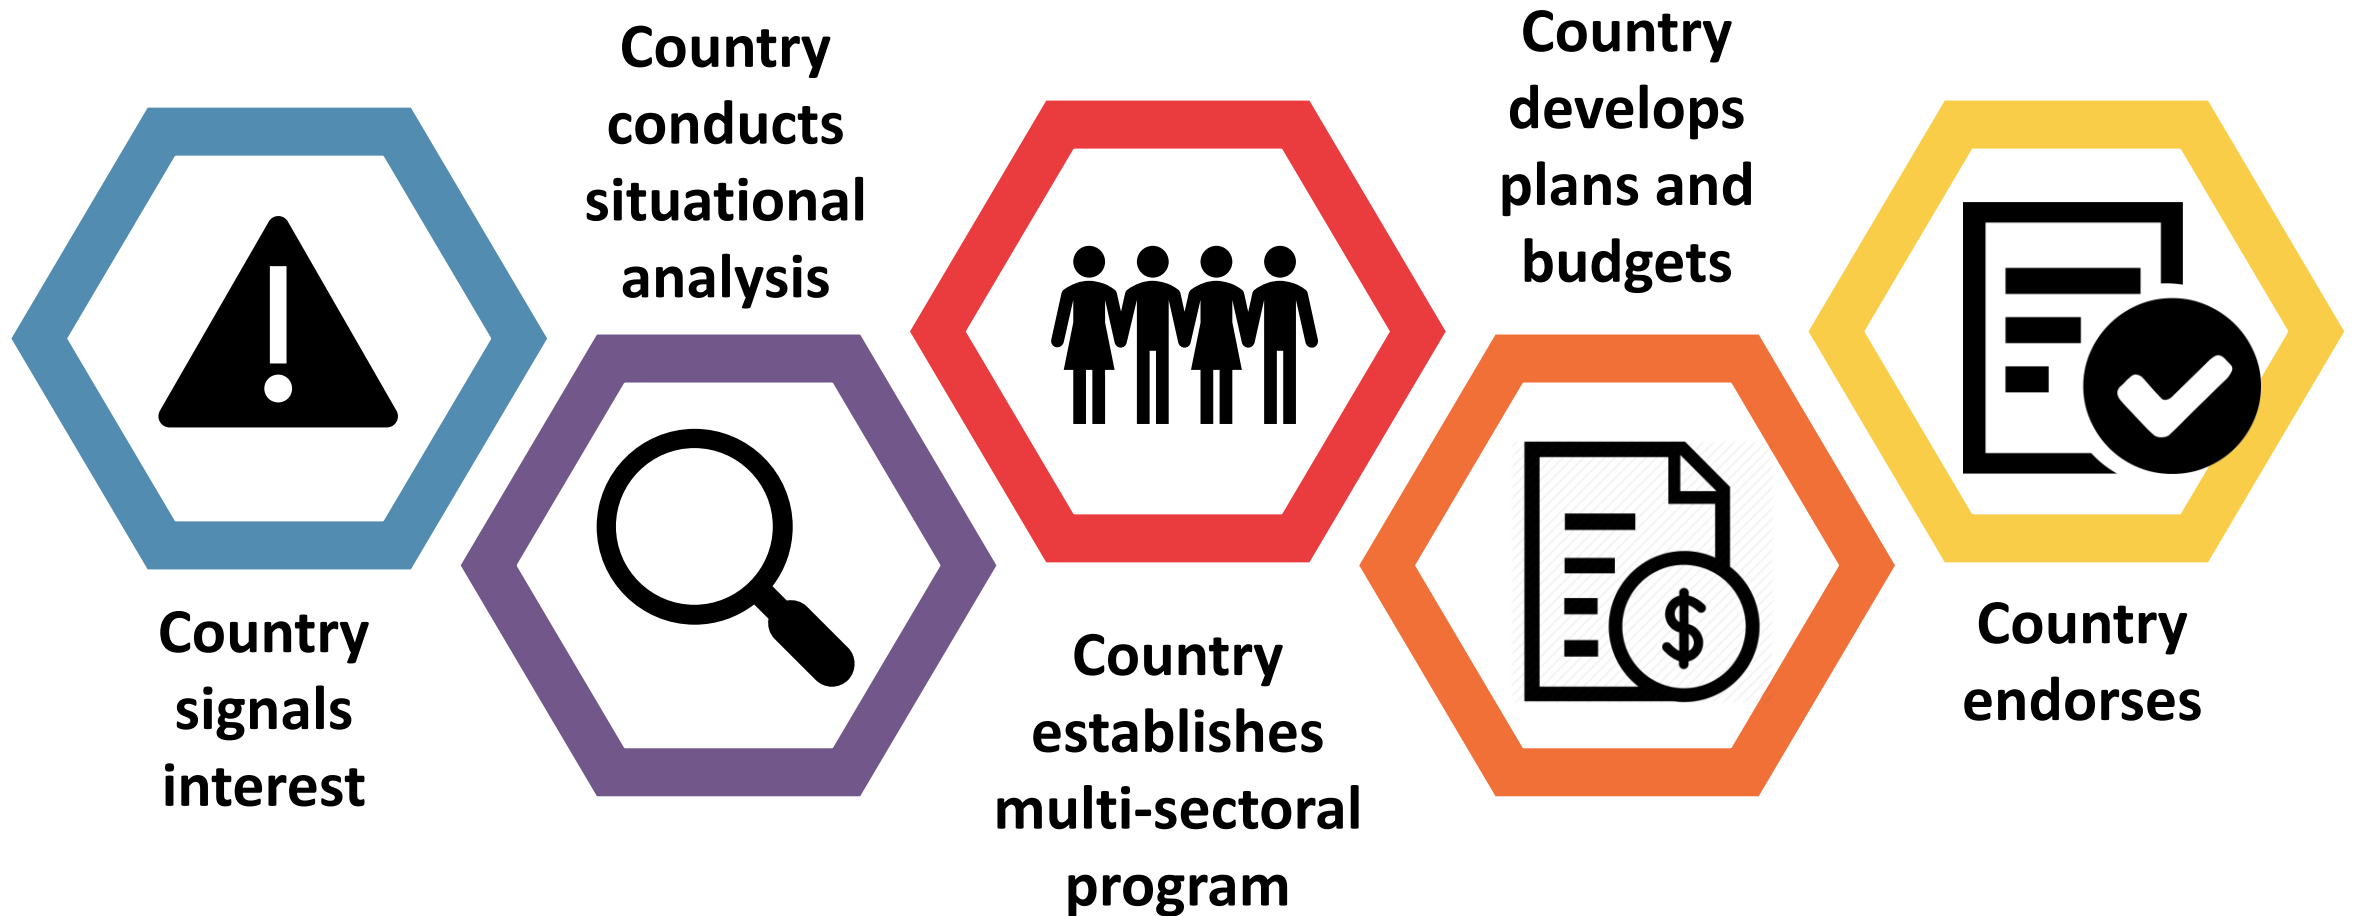

Lorenzo Pezzoli
12 February 2019

ROADMAP IMPLEMENTATION REQUIRES DEVELOPING PROCESSES TO ACCESS SUPPORT AND COUNTRY GUIDANCE

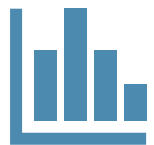

- Key objective is to **encourage multi-sectoral implementation, provide countries with guidance on NCPs, and ensure strong monitoring of national cholera programmes**
- Two workstreams will be undertaken to focus on the:
 - Practical guidance to countries and partners on NCP development, implementation, and monitoring
 - GTFCC Process to receive, review, and endorse NCPs

RECOMMENDED NCP DEVELOPMENT PROCESS

GTFFC partners can support countries throughout the process

SITUATIONAL ANALYSIS CONSISTS OF TWO COMPONENTS— (I) CHOLERA RISK ASSESSMENT

CONDUCT HISTORICAL REVIEW

- Minimum 5 year review, including:
- Epidemiological curves
 - Number of cases and deaths
 - Outbreak frequency, magnitude, severity
 - Susceptibility of population

CONDUCT MAPPING

Identify and map all hotspots within a country and plot on a map

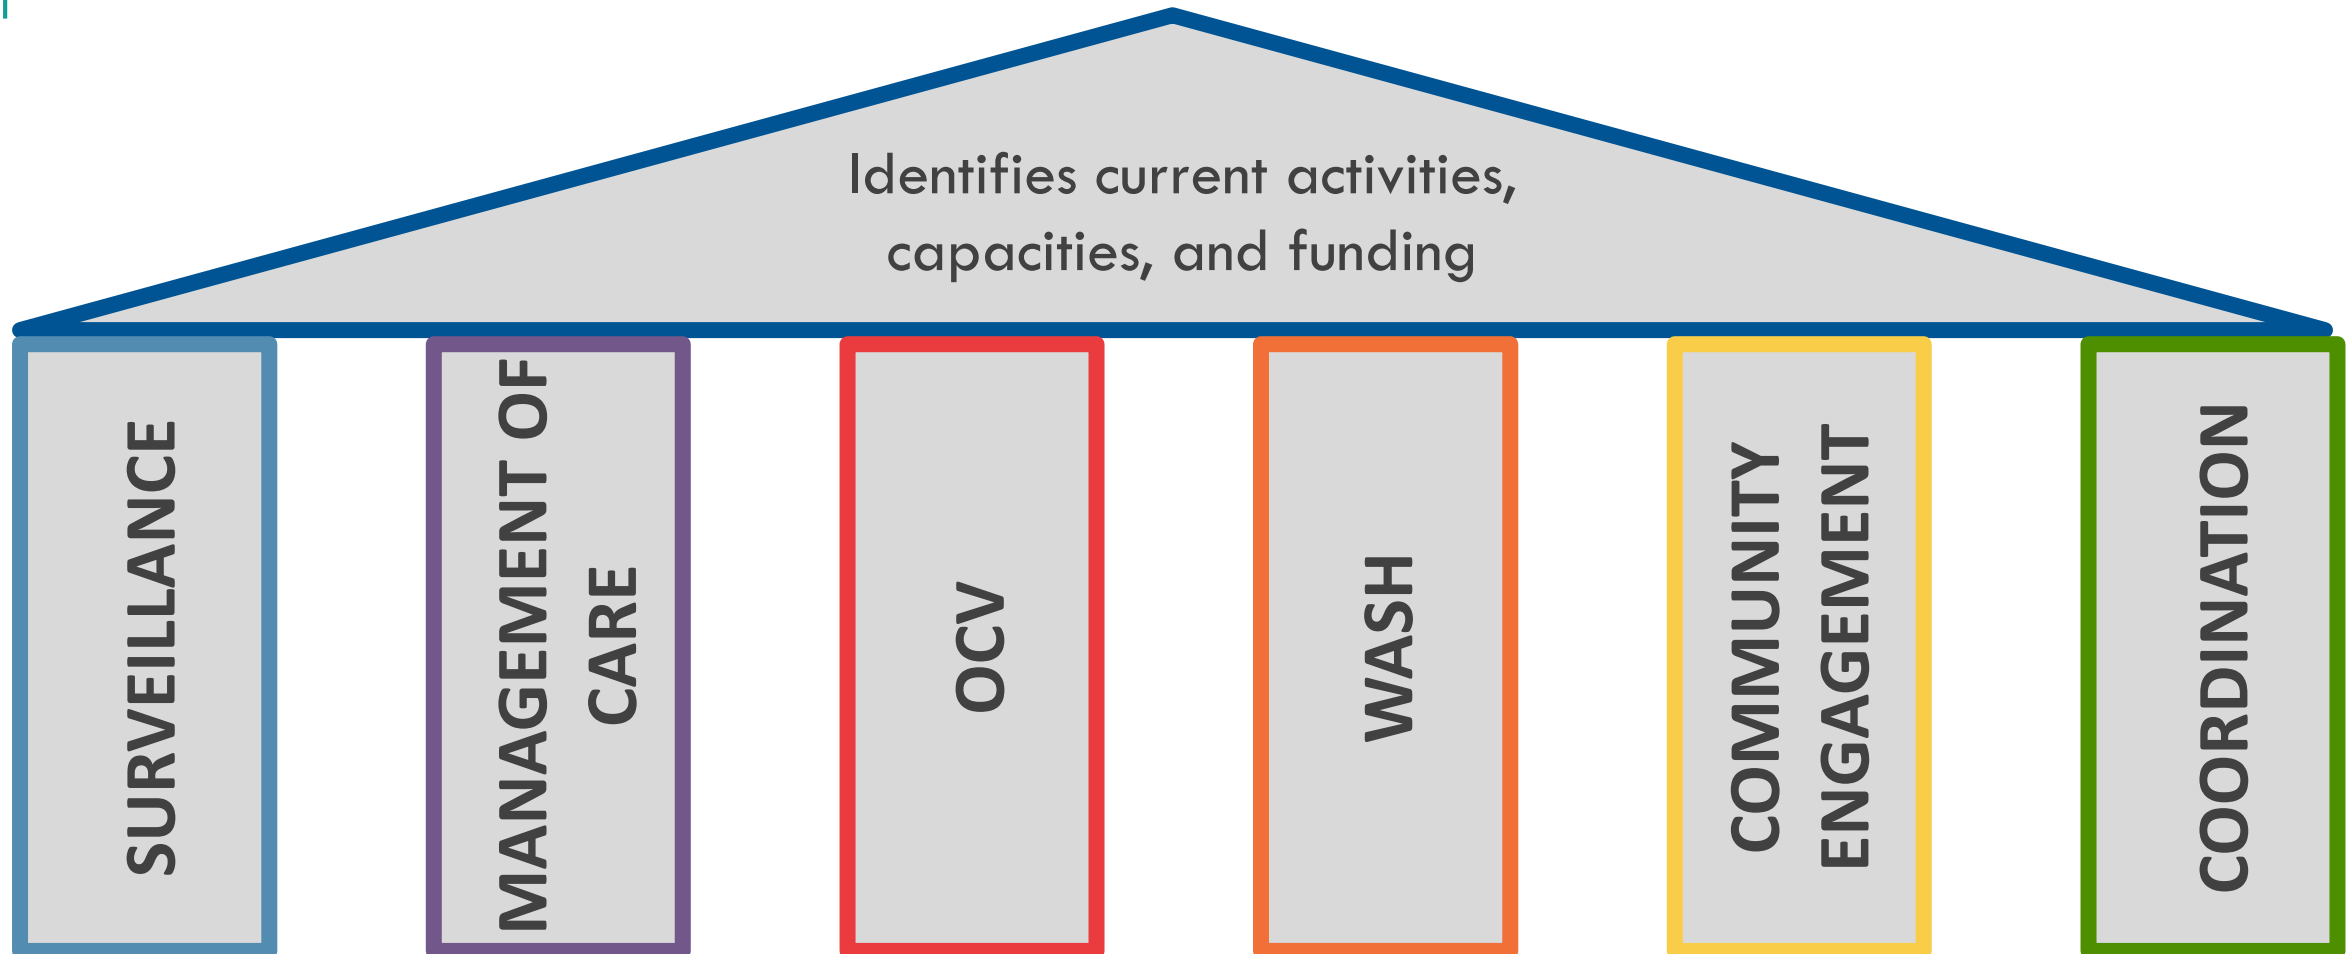

EVALUATE CONTEXTUAL FACTORS

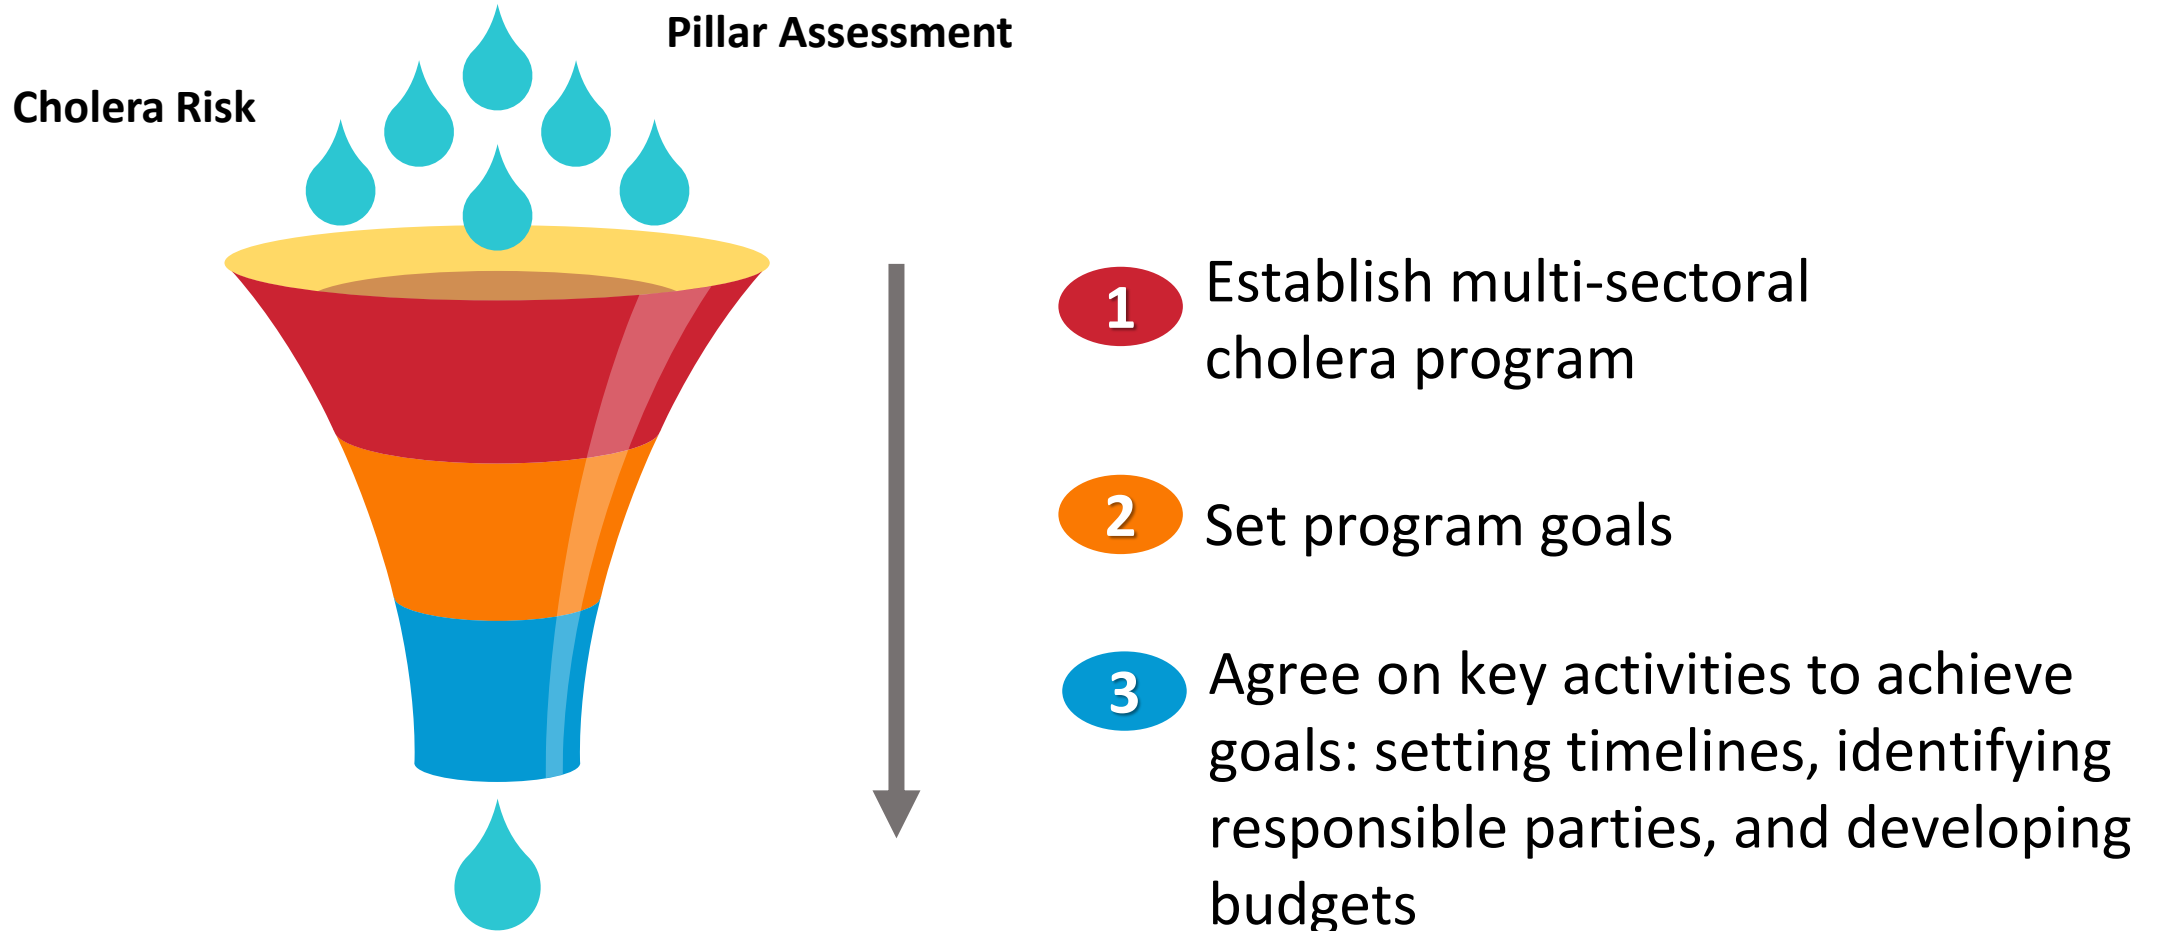

- Risk of spread – mobility, weather patterns, special populations, health seeking behaviors
- Assessment of WASH practices

SITUATIONAL ANALYSIS CONSISTS OF TWO COMPONENTS— (II) ASSESSMENT OF EACH PILLAR

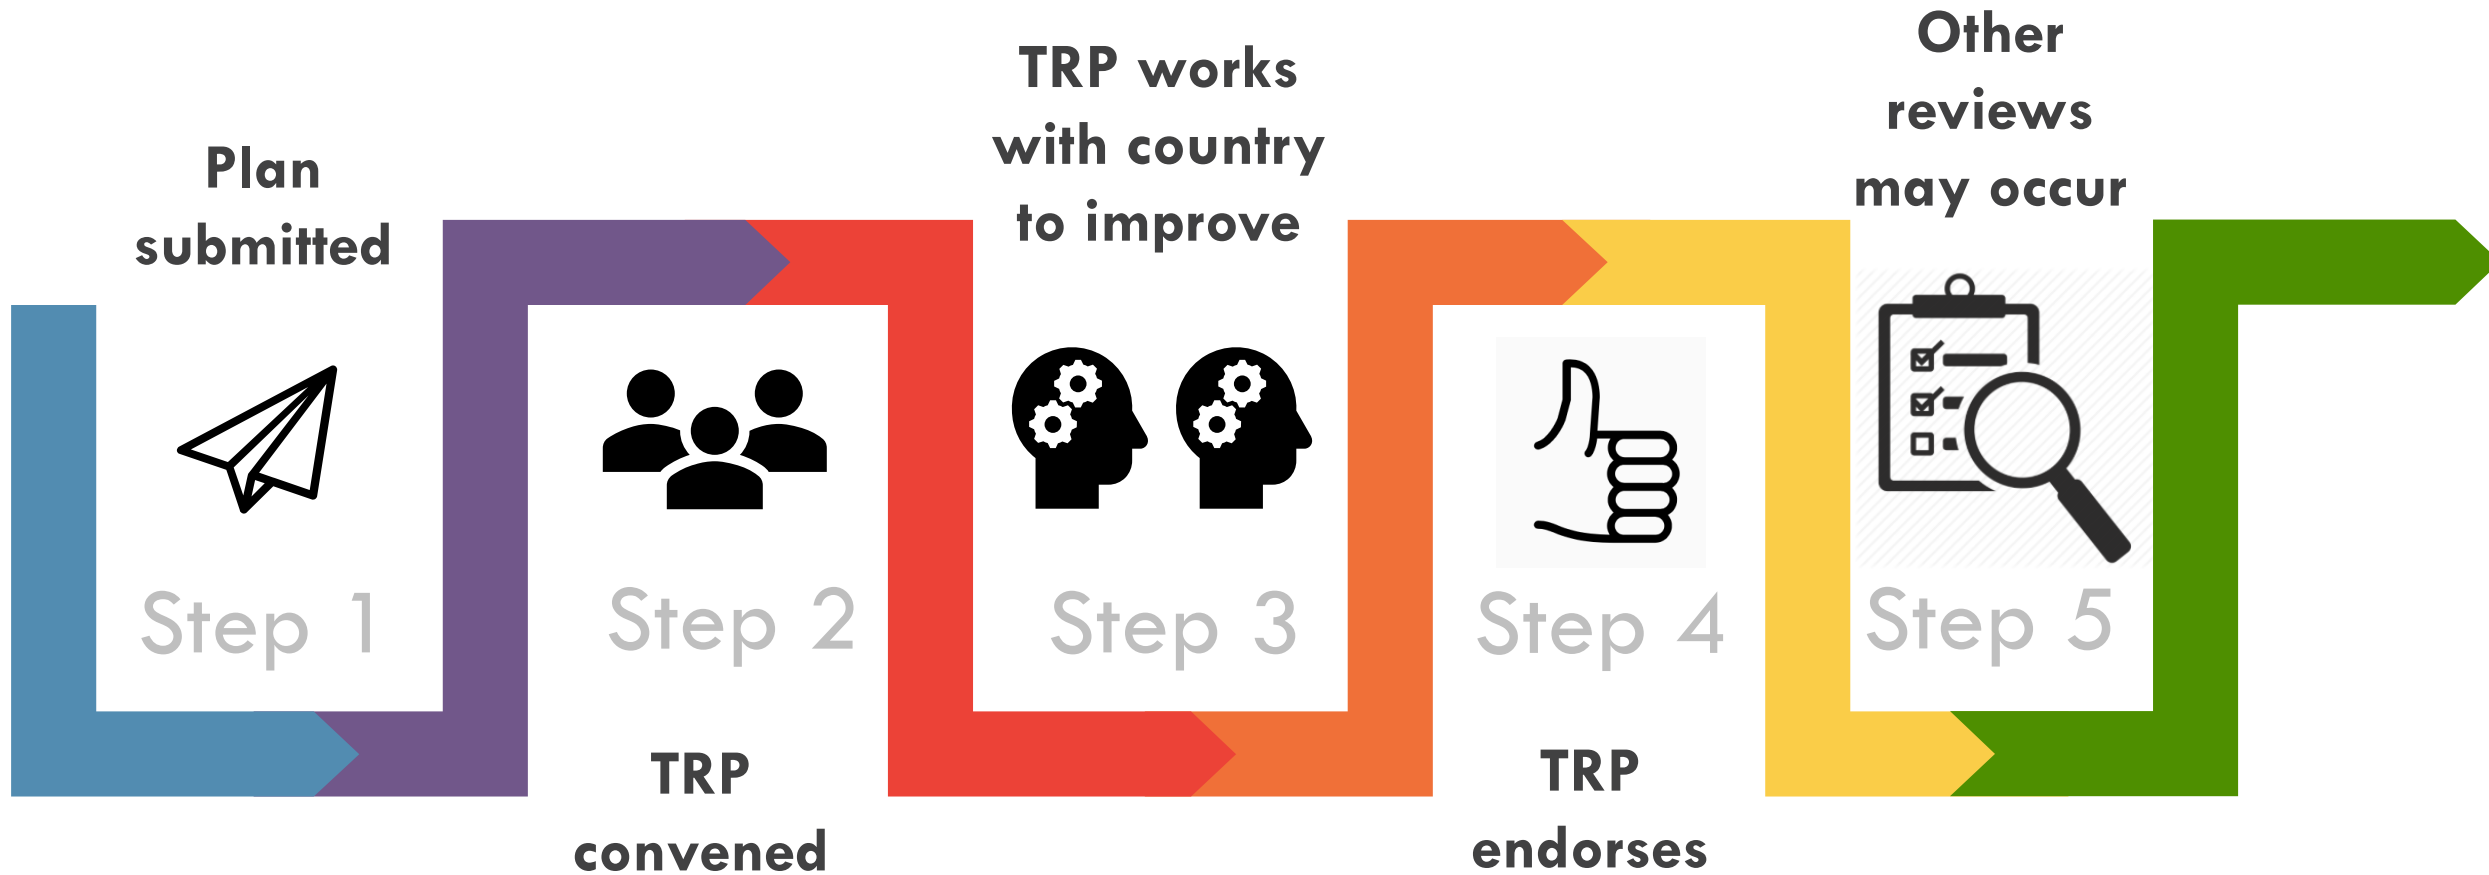

SITUATIONAL ANALYSIS FEEDS INTO NCP DEVELOPMENT

Long term strategy and multi-sectoral program for implementation

GTFCC ENDORSEMENT PROCESS

TIMELINES AND CONSULTATION

- A sub-set of individuals from each WG, including partners and countries, will be asked to provide detailed feedback
- High level consultation with each GTFCC WGs via email or annual meetings
- Draft document circulated for feedback in February 2019
- Institutional buy-in to be collected and finalized in May 2019
- All documents will be finalized at the annual June 2019 meeting via GTFCC validation with planned dissemination by early July 2019

GLOBAL TASK FORCE ON
CHOLERA CONTROL

THANK YOU
