ICG OCV requests 2019

- Reasons for low percentage of approved doses by ICG in 2019 (48%):
 - Requests not approved:
 - OB clearly declining or over (4 req.)
 - Low risk of cholera OB (humanitarian context) (2 req.)
 - Requests partially approved:
 - Low OCV supply: Doses approved only for areas with very high risk of OB (2 req.)
 - Wastage rate (1 req.)
