

Social Innovation Hub in Malawi

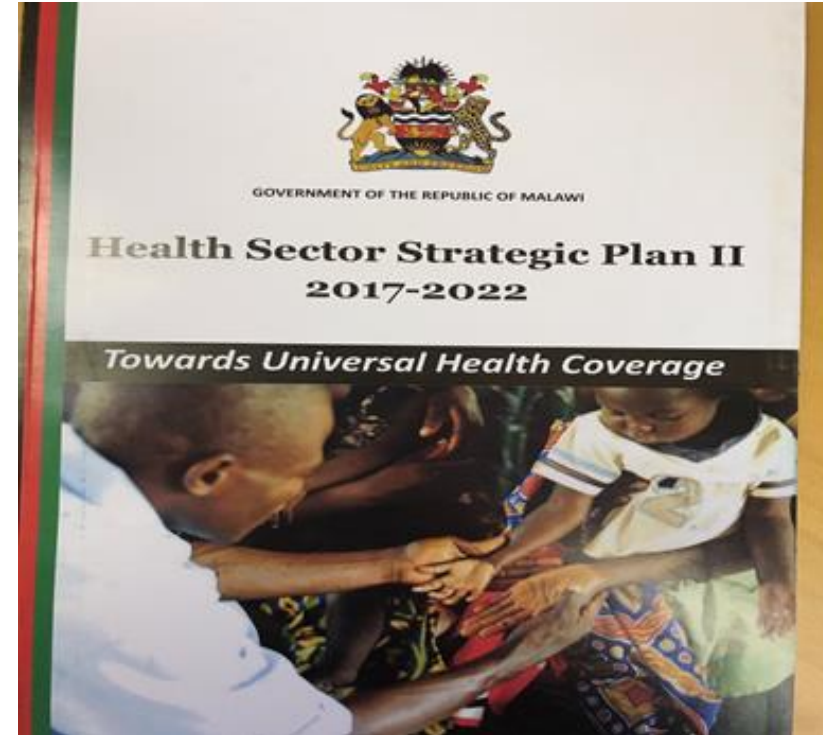

A PROUD PARTNER OF

**SOCIAL
INNOVATION
IN HEALTH
INITIATIVE**

Country Context

- 80% of population **rural/underserved**
- 20% of population live **> 5 kms** away from the nearest health facility
- Majority of deaths from **malaria/diarrheal/ respiratory diseases**
- Efficacious interventions not readily available – **lack of community participation**

FOCUS AREAS - 1

We provide a platform for all stakeholders to come together to share, learn, advocate, and pool resources.

LEARN

We **identify** social innovations in Malawi and **research** them to understand how we can improve our healthcare system.

- **Innovation calls** – mapping/
repository
- **Case study research**
- **Advocacy**

Promising Social Solutions

- **Chipatala Cha Pa Foni (CCPF)** – A mobile-health solution providing a toll free hotline to gain health advice from nurses as well as health tips and reminders via SMS and voice messaging
- **Kaundu Community-Based Health Insurance** – A community-initiated and owned health insurance scheme that reduces the excessive health service fees at a time of need
- **A Sustainable And Affordable Rural Healthcare System – Rural Healthcare Prototype** – An integrated rural healthcare model comprised of a fully solar & wind -powered hospital complemented by vocational training and sustainable agriculture programmes providing employment to 300-people
- **Learners Treatment Kit** – trained teachers diagnosis using mRDTs and providing malaria treatment using ACTs

FOCUS AREAS - 2

We provide a platform for all stakeholders to come together to share, learn, advocate, and pool resources.

Connect

We provide a **platform** for all individuals and organizations interested in social innovation to **network, share, and collaborate.**

- **Dissemination platforms**
- **Innovator/ private sector meetings**
- **Advocacy**

FOCUS AREAS - 3

We provide a platform for all stakeholders to come together to share, learn, advocate, and pool resources.

Support

We **recognize, promote, and build skills** of innovators and citizen-led ideas to create a culture of Malawian solving their own health challenges

.

- **Project management course**
- **M & E courses**
- **Cross University Case Competition**
