SOCIAL INNOVATION IN HEALTH INITIATIVE

PHILIPPINES

Strengthen capacity on research & implementation of SIH

Connect and convene stakeholders

Advocate for institutionalisation

Improve communications coordination

Impact Areas

- Service Delivery Network
- PHC and the implementation of the UHC Law
- Healthcare in underserved areas – GIDA, vulnerable groups
- Gender sensitive/gender transformative research
- Environmental health

Transformative change

IMPACT

Transformation of the Philippine health care system through social innovation – towards UHC & Ambisyon Natin 2040

Research Proposals and Contributions in Manuscripts for Publication

- Crowdsourcing to identify social innovations in health in low- and middle-income countries
- Universities in low- and middle-income countries as catalysts of social innovation in health systems
- Social innovation: adding the human dimension to people-centred systems in support of universal health coverage

-
- **Social Innovation and Social Entrepreneurship Research and Teaching Landscape Survey**

**SOCIAL
INNOVATION
IN HEALTH
INITIATIVE**

Online Course: Fundamentals of Implementation Science

Fundamentals of Implementation Science

- Site group coordinator in partnership with
- 32 Participants

**ALLIANCE FOR IMPROVING
HEALTH OUTCOMES**

**SOCIAL
INNOVATION
IN HEALTH
INITIATIVE**

Implementation of Introductory Module on SIH

- Two runs:
 - ✓ Doctors to the Barrios Program
 - ✓ UP School of Health Sciences
- Sections:
 - ✓ Human Centered Design/ Design Thinking
 - ✓ Characteristics of SIH
 - ✓ Stages of Social Innovation
 - ✓ Local Examples of SIH

Exploring Partnerships

- UNDP Philippines #HacktheLab

- Zero Hunger Lab

- AIM School of Executive Education

SOCIAL
INNOVATION
IN HEALTH
INITIATIVE

Partners Meeting

- 28 Partners attended:
 - 7 - academic institutions
 - 4 - government
 - 7 – NGOs
 - 2 – UN organizations
 - 2 – private companies
 - 6 – student organizations

Towards Unity for Health (TUFH) Conference

Communicating Social Innovation in Health as a Tool for Social Accountability: Issues and Lessons Learned

Identifying the Felt Needs and Concerns of Innovators for Social Innovation in Health in the Philippines

SOCIAL
INNOVATION
IN HEALTH
INITIATIVE

Communications Coordination

- SIHI partner newsletter and website updates
- Support for LAC and Malawi Hubs in their innovation calls, including brand refinement process
- SIHI Connect training
- Case films for SIHI Philippines
- Social media campaigns

CALL FOR SOLUTIONS

HAVE YOU OR DO YOU KNOW OF ANYONE THAT HAS IMPLEMENTED AN INNOVATIVE AND CREATIVE SOLUTION IMPROVING HEALTHCARE IN MALAWI?

We are searching for solutions that:

- Increase access to health services.
- Improve quality of health services delivered.
- Are more affordable or of a lower cost.
- Contribute to the achievement of the health Sustainable Development Goals.

APPLY BY 16 SEPTEMBER 2019!

Go to: www.socialinnovationshub.org

Download: www.socialinnovationinhealth.org/

Collect a form from our office: Malawi Alert Centre, Queen Elizabeth Hospital, Lilongwe

By sharing your solution, you can benefit in many ways!

 Research - Researchers from College of Medicine will come to study and learn from your work and produce a case study.	 Recognition - Your solution will be recognised by the College of Medicine, Ministry of Health and the Social Innovation in Health Initiative.
 Learning sessions - Be invited to special innovation skills learning sessions.	 Exposure - Through the SIHI network, you will receive exposure in Malawi and internationally.
 Community - You will become part of our global community of innovators.	 Professional video - A short video to the value of \$4500 will be made.

INITIATIVE**

Key Lessons: Innovators' Journey

Support needed:

- Training/technical assistance
- Access to funding
- Resource network

**Social
Innovation**

Facilitating Factors:

Internal:

- Team competence
- Strong leadership
- Performance management

External:

- Stakeholder support
- Funding
- Enabling environment

Coming up with the innovation:

- Identification of a need or gap to address
- Engaging multiple stakeholders

Key Lessons: Partners Meeting

- Recurring question of what social innovation in health (SIH) really is and what it is not
 - Need to explore a shared understanding of SIH in the Philippine context
- Partners' roles:
innovator/incubator/implementer/partner
 - Continuing to map the SIH ecosystem and understand the different players enable synergies among them. The Hub has been able to partner with specific organizations for joint activities because of the knowledge of the shared agenda with these organizations.

Key Lessons

- Planting seeds among students and young public health practitioners is strategic.
 - there is a clamor for guidance on designing social innovations, and for networking and collaboration with stakeholders
- Inviting consultants with complementary skills and expertise with the current mix of the team has enriched the Hub.
- Activities that are heavily dependent on partners for decision-making and implementation tend to change a lot in terms of timeline and scope, because of the partner organization's own activities and current priorities.

Beyond 2019

- Innovation calls and support for innovators
 - UP Manila
 - Newborn Screening
 - Doctors to the Barrios
- Development of other modules on SIH
- Continuation of building and formalizing the SIH network/learning exchange platform
- Further diversification of team members/consultants
- Advocate for SIHI within the University for it to be an organic unit/department within UPM

Beyond 2019

- Are we ready to go regional?
