

# Strengthening international engagement to support the Zero by 30 Global Strategic Plan (Zero by 30)

## 13<sup>th</sup> Meeting of the Partners for Rabies Prevention

Les Pensières, Center for Global Health,

Veyrier-du-Lac, France

13-15 June 2022

Our mission is to fight infectious diseases that affect vulnerable populations in developing countries, especially mothers and children, by building local capacities.

- a family working for more than 100 years in the service of public health around the world
- 4 generations sharing the same long-term vision
- a foundation dedicated to the fight against infectious diseases primarily in Low-Middle Income Countries for more than 50 years

# The Mérieux Foundation

**Founded in  
1967**

**Independent,  
Given Charity  
status for public  
utility in  
1976**

**Operational**

# The Mériieux Foundation

Increasing  
vulnerable  
populations' access  
to diagnostics

Enhancing local  
applied research  
capabilities

Encouraging  
knowledge-  
sharing and public  
health initiatives

Improving  
conditions for  
mothers and  
children

- *A collaborative dynamic driven by partnerships with local healthcare stakeholders, international organizations, academic research, companies and NGOs,*
- *A long-term vision with sustained support leading to autonomy and local ownership of infrastructures and programs,*
- *Building networks for international cooperation to share experience and pool skills,*
- *A global health approach from humans to animals, taking into account healthcare, but also nutrition, environmental safety, education and socio-economic support for patients.*

Reset

MÉRIEUX FOUNDATION

We are carrying out projects in around twenty countries, in particular through 8 local offices, 4 training and research centers and 19 applied research units federated in the GABRIEL network. In all the countries where we operate, we work in conjunction with international, national, regional and local partners.
