

DERBI Foundation Overview

Who we are

Dayananda Sagar Entrepreneurship Research & Business Incubator (DERBI) Foundation is a Not for Profit Technology Business Incubator focused on supporting healthcare innovators creating social impact. It is supported by multiple divisions of Government of India.

DERBI envisions to be a leading Healthtech Social Innovation Incubation Centre by creating a sustainable ecosystem for entrepreneurship through state of art technology support and business wisdom to create impact at the bottom of the pyramid.

What we do

The DERBI Foundation energies the ingenious early-stage, mid-stage, and later-stage entrepreneurs to develop innovative and impactful Deep Tech solutions solving grass root problems of India especially in healthcare. We enable passionate founders to traverse their entrepreneurial journey of product development to commercialization ; through deep mentoring, clinical trials, field connects, fellowships, Grants and seed funding.

“Our mantra is to come with an idea and go with impactful product”.

Highlights of few social innovations we supported and creating impact

- Single device to detect chikungunya, malaria and dengue within few minutes.
- Low cost Bone densitometer to estimate the bone density
- Piezo resistive sensor device to measure the inhalation and exhalation counts pressure by the lungs especially for Asthma Patients.
- The smart, non-invasive, handheld Colposcopy device for quick and automated Cervical Cancer Screening and Diagnosis
- Hands free voice prosthesis speaking device for throat cancer patients
- Breast implants for reconstruction surgeries and wearable breast prostheses for external use.
- Air Monitoring and Purification of microbial present in air
- IoT Enabled Gamified Rehab Device for patients at during and after hospitalization.

Where we are:

We are located at Bangalore, India.

Expectations from the workshop

To learn about the Global healthcare Social innovations

To explore synergies with likeminded organizations

To share about our work we have done in the healthcare innovations

To partner with the SIHI and global networks.

A PROUD PARTNER OF

SOCIAL
INNOVATION
IN HEALTH
INITIATIVE
