The Advanced Course on Diagnostics (ACDx) advocates for the role and the value of diagnostics in global health and builds capacity for critical decision-making on diagnostics in developing countries through partnerships and networks.

This week-long intensive course is designed to enhance the knowledge and professional network of participants. The course focuses on the difficulty of access to quality-assured diagnostics, especially for antimicrobial resistance control and epidemic preparedness, while promoting social and technological innovations.

KEY FIGURES

- 40 PARTICIPANTS
- 35 INTERNATIONAL SPEAKERS
- 6 INTERACTIVE SESSIONS
- 10 SUCCESSFUL YEARS
- 6 DAYS OF KNOWLEDGE-SHARING
- 1 DIPLOMA
- A NETWORK OF 380 ALUMNI

Organised by

**The Mérieux Foundation
and the London School
of Hygiene & Tropical
Medicine**

**Course director:
Prof. Rosanna Peeling
Co-director:
Dr. François-Xavier Babin**

Who should apply?

Scientists, health professional and decision-makers involved in the development of diagnostic tools or in the design and implementation of strategies and policies on the use of diagnostics in the control of infectious diseases at community, national and international levels.
