

Pediatric Infectious Disease Society of the Philippines

PIDSP

Vision

With a deep sense of dedication to the Filipino child, we are :

- A dynamic, progressive and socially responsive subspecialty society, bound by the highest ethical standards
- The prime mover in prevention, management and control of pediatric infectious diseases (PIDs),
- Recognized nationally and internationally

Mission

In the spirit of unity, solidarity and teamwork, imploring the aid of Divine Providence, in the field of pediatric infectious disease, we commit to:

1. Promote and sustain professional excellence, integrity, exemplary ethical conduct and social responsiveness
2. Pursue the highest standards for relevant and essential training, research and practice
3. Demonstrate outstanding and effective leadership in education, advocacy and communication
4. Establish networks and partner with national and international agencies, serving as an expert group in the management, prevention and control of pediatric infections.
