

GLOBAL TASK FORCE ON CHOLERA CONTROL

**10th Annual Meeting of the Global Task Force on Cholera Control (GTFCC)
26-28 June 2023**

Veyrier-du-Lac, Les Pensières, France
(Virtual attendance for afternoon plenaries only)

Objectives of the meeting

- Present the picture of the current Cholera global situation and response coordination mechanisms: highlighting the context in which the GTFCC community is/has been operating.
- Update on the activities of the GTFCC secretariat, the GTFCC Country Support Platform (CSP), Technical Working Groups (TWG) and Countries in this context: what has been done.
- Discuss the lessons learned to inform future action of the GTFCC and identify action items.

Venue and Dates

This meeting will be conducted in a **hybrid format**. The meeting will occur from 26-28 June 2023 in Veyrier-du-Lac, Les Pensières Conference Center, in Annecy, France. Interested parties will also be able to join the afternoon sessions virtually (via Zoom).

Information on Scheduling

The official annual meeting sessions will occur **in the afternoons (from 13:30 each day)**. This approach to scheduling will allow for easier participation and will ensure that virtual participants from multiple time zones are able to join the meeting. Please note that side-meetings will be proposed in the mornings but are **not** “formal” aspects of the annual meeting agenda and are scheduled to facilitate adjunct conversations. **Virtual attendance will only be available during the afternoon sessions, with morning sessions occurring in-person only.**

Monday, 26 June 2023
