The Advanced Course on Diagnostics (ACDx) advocates for the role and the value of diagnostics in global health and builds capacity for critical decision-making on diagnostics in developing countries through partnerships and networks.

This week-long intensive course is designed to enhance the knowledge and professional network of participants. The course focuses on the difficulty of access to quality-assured diagnostics, especially for antimicrobial resistance control and epidemic preparedness, while promoting social and technological innovations.

#### KEY FIGURES

- 30 PARTICIPANTS
- 35 INTERNATIONAL SPEAKERS
- 6 INTERACTIVE
- 12 SUCCESSFUL YEARS
