For over 24 years, ADVAC has provided senior decision-makers and scientists in the field of vaccines with a comprehensive overview of the latest advances, from immunology to vaccine development, including clinical trials. The social, economic, political and ethical issues of vaccination are also addressed during the lectures which are given by a faculty of leading global experts. Participants come from low, middle and high-income countries from around the world and are affiliated with academia, governmental agencies, non-governmental organizations, international organizations, and industry.
